

PT02_Aviso2_001 BIOMETORE - Biodiversity in seamounts: the Madeira- Tore and Great Meteor

Promoter:

Partners:

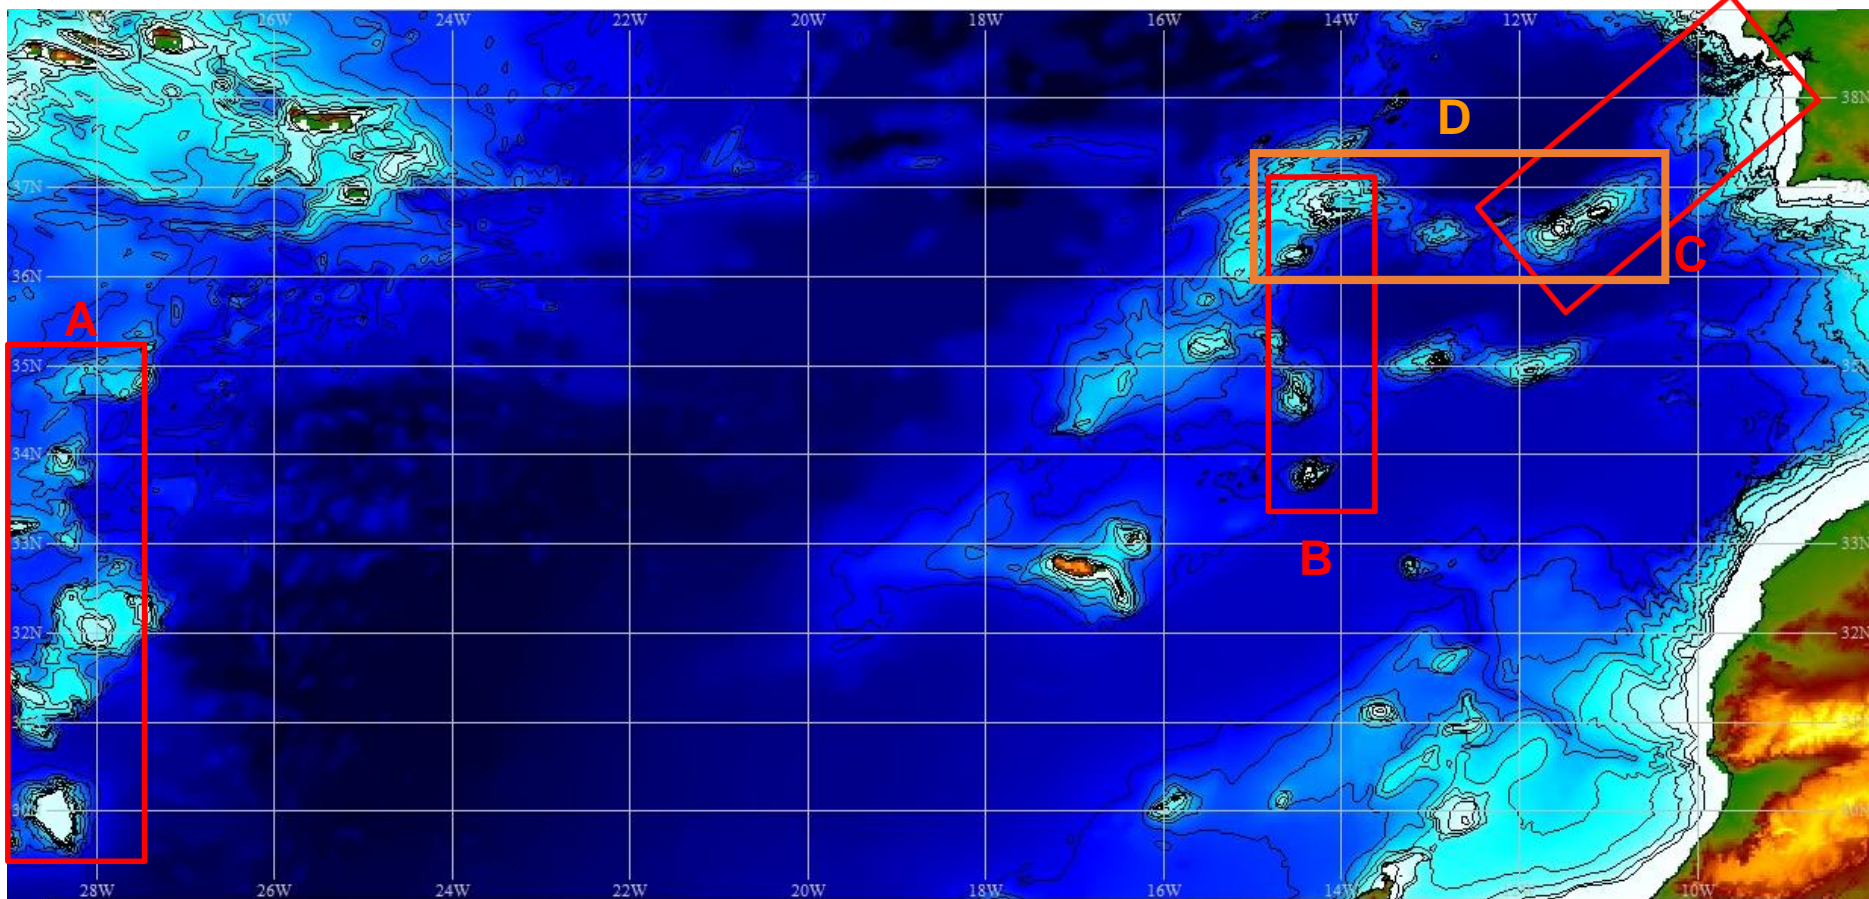

Direção Regional dos Assuntos do Mar

Collaborators:

BIOMETORE survey areas

BIOMETORE Objectives

Acquire knowledge on biodiversity, from species to pelagic and benthic ecosystems and human pressures on seamounts in the Madeira-Tore (Gorringe bank, Josephine and Seine) and Great Meteor geological complexes.

The data obtained will contribute to improve knowledge on relevant MSFD descriptors such as those related to biodiversity.
