PTO2_RPS_0001 SEA MEETINGS

ASPEA- Portuguese Association of Environmental Education

PROJECT CONTEXT / PARTNERS

- ✓ **Project funded by the EEA Grants and managed by DGPM.**
- ✓ **Project coordination: ASPEA - Portuguese Association for Environmental Education.**
- ✓ **The *Sea Meetings* project consists of a set of promotional and debate events about the sea and coastal areas, to improve the awareness of the educative community about preservation of marine heritage and knowledge dissemination about these topics.**
- ✓ **PARTNERS: MARE – Marine and Environmental Sciences Centre and EDUCATIS Training Centre**
- ✓ **Schools Involved: Vila Nova de Cerveira Schools Group; Monção Schools Group; Aveiro Schools Group; Viriato High-School (Viseu); Gago Coutinho High-School (Alverca, Vila Franca de Xira); Doutor Ginestal Machado High-School (Santarém); Ericeira Schools Group (Mafra); Horta Vocational School**

PROJECT OBJECTIVES

- ✓ To enhance an approach between High-Schools and Research and Development Centres, creating an effective sharing network of resources and knowledge about the Sea.
- ✓ To mobilise schools for citizenship actions through the organisation of sea events;
- ✓ To train teachers about sea topics;
- ✓ To develop in students the scientific spirit and autonomy abilities and guidance to solve problems;
- ✓ To Disseminate information and enlarge the awareness of the educative community to the value of the sea and coastal areas (natural resources, ecosystems services, types of jobs/economy, history, culture);
- ✓ To promote the exchange between inland and coastal schools and evoke the reflection about the need of integrated management approaches of the river-sea continuum.

PROJECT INDICATORS

The project expectations were:

- Direct involvement of 8 high-schools and 300 students; 80 teachers attendance in the 4 training courses given; 40 Monitoring Visits in schools and 5 Sea Events.
- To touch 1000 educative community people in all initiatives performed along the project and reach 1000 visualizations through social networks dissemination.
- To raise the use of web sites of Ocean Literacy establishing as 1600 the goal to the number of visits to “Kit do Mar” and “Conhecer o Oceano” web sites.
