

Pre-defined project 1 (PDP1)

## Acquisition and fitting of a Dynamic Positioning (DP) Vessel equipped with Marine Surveying Equipment

### DESCRIPTION

The purpose of the pre-defined project is to acquire a second-hand Dynamic Positioning (DP) research vessel in order to increase the capacity to perform multidisciplinary marine research in the Atlantic Ocean from the coastal areas to deep-sea regions. The vessel will have two main operating modes: fisheries research and ROV-operations for environmental research (oceanography, geology, biology, hydrography, etc).

### PROJECT PROMOTER

Portuguese Sea and Atmosphere Institute (IPMA)

### DONOR PROJECT PARTNER

Institute of Marine Research (IMR) - (Norway)

### TOTAL COST

13.178.688€

### TOTAL ELIGIBLE COST

12.941.176€

### EEA Grant

11.000.000€

### OUTCOME

Outcome#2 - Improve monitoring of marine waters

### OUTPUT

DP Vessel equipped with marine surveying equipment acquired and fitted for operation

### INDICATOR

Number of replacement DP Vessels equipped with marine surveying equipment acquired and fitted for operation

### TARGET

1
